

30L Indoor Fan Forced Gas Geyser

OD30DH

The cutting edge 30L Gas Geyser Outdoor Fan Forced is one of the safest and most efficient gas water heaters on the market. This gas water heater is equipped with many unique features and is constructed out of high-quality components.

- Heavy-duty copper radiator
- 88% energy efficiency
- Pressure relief protection (to function effectively, the valve must be set to your water pressure)
- Temperature controller included with a 10m cable
- Wifi enabled - mobile phone app controller
- Automatic self diagnosis codes
- Compatible with mixer taps
- Ensures constant temperature when multiple outlets are used simultaneously
- Weather proof exterior
- Flame failure safety device
- Inverter compatible

D Type Install outdoors only

This model is weatherproof but for extended product life, we recommend a weather box (cover)

Max Gas Pressure 2.8 kPa	Rated Input 58Kw	Max Gas Consumption 4.8 Kg / hour	Water Pressure 25-1000 kPa	Water Output (min/max) 2.5L-30L / min	Rated Voltage 240V / 60Hz
IP rate IPX4	Rated Electric Power 52W	Unit Size 614 x 390 x 265 mm	Unit Weight 22.5 Kg	Packaged Size 750 x 475 x 350 mm	Packaged Weight 25.5 Kg

Weather Box Size Guide

Ensure the utmost protection for your outdoor gas geyser by installing a weather box (cover), shielding the appliance from severe weather conditions and potential damage. Additionally, these weather boxes effectively prevent birds from nesting on top of the geyser and significantly minimize corrosion caused by sea air. Crafted from galvanized steel, these weather boxes are resistant to rust and can also be powder coated for a sleek and stylish finish.

Fan Forced

- 20L FF Medium
- 30L FF Large

Constant Temperature

- 12L Large
- 16L Extra large

Eco-Flow Low Pressure

- 5L Small
- 8L Large
- 12L Large
- 16L Extra large

Diaphragm Activated

- 6L Small
- 8L Medium
- 10L Medium
